My deepest sympathies to her family. I was just informed by my mom Sharon Reynolds who was also a patient of hers that she died but too upset to reach out. They don't make Drs like her anymore who will patiently spend unlimited time answering numerous unrelated minor medical questions all in 1 visit which doesn't make business sense from an insurance reimbursement point of view. I marvel now with gratitude to think of how many extra hours you must have sacrificed to support her in this extraordinary practice.

My daughter and I just discovered this obituary today and it caught us by surprise. We are sorry for the loss of someone so caring and kind. As I read through the tributes I found myself echoing their words. Her family must miss her greatly. May she rest in peace.

I am so very shocked at just finding out of the passing of Dr. Jane Daniel. I had been a patient of hers for many, many years. She always treated me with kindness, never rushing through an appointment, always genuinely listening and very compassionate. I am eternally grateful and blessed to have had her in my life....not only as my doctor, but as my friend who was always concerned about how I was doing and genuinely cared about me. She will most definitely be missed by her patients, family and friends. May she rest in peace I will be remembering her and her family in my prayers. Mary DeNardo

I just learned today of my Doctor;s passing. She was very caring and knew me when I came into the office. She took great care and had concern for me every time I came in. This made my heart heavy. May she RIP!

We just today learned of Dr Daniel's passing. We have been lovingly cared for by Dr Berez and Dr Daniel for the past ten years. We quickly grew to respect and care for them deeply, as they have both been the quintessential physicians everyone longs to have, treating us with friendly kindness, never rushing through an appointment, always genuinely listening, and practicing the highest standard of clinical care. We have enjoyed seeing photos of their growing daughters over the years, and always looked forward to seeing the latest work by their artist-daughter. We will miss the sweet face and lyrical voice of Dr Daniel, and our hearts ache for Dr Berez and the girls. We do look forward to seeing her again, as we shared the bond of faith in the next life.

I,too, am heart broken. She was my doctor for over 30 years and treated me like a friend as well as a patient. She was so caring and sweet. I can't even imagine finding another Dr like her. I will miss her very much. Heart felt sympathy to her daughters and Dr Berez.

My heart is broken. My "doctor" has gone from labor to reward. But she was so much more to me than a doctor. She was as gentle and kind as she was stern and persistent. She healed one's whole self. I appreciate the care she has given me over the years. I am grateful for having known her. I will truly miss her.To the family: May God strengthen you and forever keep you in his care, until that day... With my sincere and deepest sympathy, Jo Anne Smith-Ponder

I just accidentally discovered Dr. Jane Daniel Berez's passing. She and Dr. Berez treated me, my husband and members of my family since the early '80s. She was a very compassionate physician and person. My sympathy to her family.

Still in shock. Learned when I went into the office yesterday about Dr. Daniel's passing. Breaks my heart. She was so caring and thorough and always took whatever time it took to get to the bottom of the problem. My thoughts are with her family and immediate friends in their time of sorrow. May all your wonderful memories of this great woman carry you through this particularly hard time. Know that she was loved and appreciated by so many of her patients - including me.

I just learned of Dr. Daniel's passing today. While I know she meant so very much to her family, friends, and patients, I am truly devastated and know that I have lost not only a wonderful doctor, but a great friend as well. I have been her patient for 20+ years and she was my rock.....my salvation.....my security....and the person I trusted most in this world. I once told her that if I ever had to choose between her and my husband, that she would win...hands down! She always took time to listen, no matter what the issue and no matter how long it took. She was always upbeat and positive. We talked about our families and I know how very proud she was of her two daughters and of her husband, Dr. Paul Berez. She was truly my guardian angel here on earth and I hope she will continue to be in heaven. I am so sorry for her pain and suffering over the years. She always did her best to hide it and not inflict her pain on anyone else. I could go on forever about what a wonderful person she was. I am eternally grateful and blessed to have had her in my life....not only as my doctor, but as my friend. May God bless her husband and daughters at this saddest of times. I will never, ever forget her.

My deepest sympathy in the loss of such a remarkable woman. She loved her family and was very proud of her children. She was my doctor for many, many years. She counseled me when my own mother died and she listened. She understood that health involved the whole person. I also credit her with knowing when to seek a specialist for a problem. And she always sent me to the best. Dr. Daniel will be greatly missed.
