When you left, you took a piece of me with you. We were two broken jigsaw pieces that fit together perfectly. The sun shines differently, the world seems louder, now that you're gone. The days seem longer, the nights are darker, now that you're gone. Once upon a time the sun shone brightly, the world sounded peaceful, when you were here. The days were shorter and the nights were brighter, when you were here. Once upon a time. Westley... my heart will never be the same, my life will never be the same, I can't process it. All I do is cry, hoping that when I wake up in the morning, it will all be a dream. My love for you was and will always be everlasting. It hurts so much knowing that I will never hear you say "hey hannah" anymore or "crumpets" in your American accent, we won't get to spend the holidays together and I won't be able to feel your embrace. You meant the world to me and I will continue to hold you in my heart forever. You were not just my friend, you were my family and our relationship was only one that you get once in a lifetime. You were and are still so beautiful and I can hear you saying not to worry. Thank you for always being there for me and never giving up on me, when I wanted to give up on life. I love you forever and always, Hannah x "If I had a flower for every time I thought of you... I could walk through my garden forever"~ Westley Kerner~
